

**Briefing Note – Meeting with local MPs at King's College Hospital
 11am Dulwich Room, Hambleton Wing**

This is a short briefing in advance of the meeting with local MPs on 27 February 2009. Please arrive at the Dulwich Room at 11 am, the MPs are due at 11.15, but they are often early. For those of you attending from outside King's, we will have someone in main reception to meet you and take you through to the Dulwich Room where the meeting is to be held. The meeting is due to end at 11.45.

The MPs have all stressed they have little time. We will offer to make the attached presentation to them, but they may well wish to skip this as they have already seen it. If this is the case, after welcoming them to King's, we will ask everyone around the table to introduce themselves and explain their history with/connection to the project and then move straight into a Q and A session. All the MPs have received copies of the consultation document and the slides from recent OSC presentations (attached for information).

We have offered the MPs the opportunity to visit the ED after the meeting as we are piloting the meet and greet system on Friday.
