LAS Total			8,159	4,408						609

54% (Previous week 53%) of all recorded handovers were greater than 14 mins.

62% of the handovers from the 5 hospitals with the most 14 min+ handovers, were longer than 14 minutes.

The top 3 hospitals for total hours lost handover to green > 14 minutes were;

1. St Thomas' **51.8 Hrs**
2. University College **44.1 Hrs**
3. Royal London (Whitechapel) **40.8 Hrs**

University College had the longest average overrun per breach at 13 mins followed by St Thomas' with 12.7 and Whipps Cross 10.7. Lewisham were the lowest with 5.2.

Because of PAS/VAS or handover issues the Handover count will always be lower than the total conveyances.

PAS/VAS are currently trialling a new web page based solution which if successful, will roll out Pan London.
