**Join us for an interactive workshop focussing on
End of Life Care provided by the London Ambulance Service**

Focus: Exploring experiences of pre-hospital end of life care in London

Identify: What needs to change? Why it matters? How can we do this?

Method: Highly interactive, lively, creative and fun

Attendees: Patients/service users, families, carers, staff and stakeholders

The workshop will be highly engaging. You will hear real-life patient and staff stories which will guide conversations in the care that is provided by the ambulance service to those who are in their final stages of life. Your insight and participation is requested to enjoy an in-depth conversation in a relaxed and inclusive environment. Outputs and feedback will inform ongoing initiatives and education to improve service user experience and patient care.
