

YOUR A&E DESERVES BETTER

TELL YOUR MP A&E DESERVES BETTER

Staff are working very hard to safely treat everyone as quickly as they can, but our emergency departments are struggling with a lack of staff, lack of beds and lack of adequate funding.

Your wait is the result of a health service stretched to the limit and despite the best efforts of staff, the NHS is struggling to cope. **It doesn't have to be this way.**

The Royal College of Emergency Medicine believe that this hospital should be supported with more staff, more beds and better funding.

You can help us achieve this by telling your Member of Parliament that you think this too and support our plan for emergency medicine.

It's your time, your health, your hospital, your health service. You deserve better.
Tell your MP you want better.
